Some of the major sights that define the look and history of Naples, are: Piazza Plebiscito that is the most magnificent square in Naples, built in the form of an amphitheater and surrounded by wonderful buildings. Castel dell’Ovo that means “Egg Castle” in Italian, it’s a 15th century structure on an island site that has been fortified since Roman times. The island is now joined to the mainland by a causeway. Continue to Anacapri where you will see the fabulous Villa of Dr. Axel Munthe, a Swedish doctor, whose best selling book "Story of San Michele" tells of his time on Capri. His villa was built with the remains of Roman ruins. There is a beautiful shady garden with a terrace offering a splendid view of the island. Although most of the Pompeii’s 20,000 inhabitants did not survive, much of their city did. This UNESCO World Heritage site has been carefully excavated to reveal its former glory. Caserta was considered to be a safe building location because it was out of the range of Vesuvius and attack by sea pirates was also impossible. Built to rival the palaces at Versailles and Madrid, the Royal Palace of Caserta was used as a base for the allies during World War Two. The Palace was more recently used as a film location for the movie "Star Wars Episode II: Attack of the Clones." You will choose if you want to visit the Royal Palace or the Gardens.
